You will probably be familiar with Vinho Verde - the “young wine” from Portugal’s northernmost wine making region, so far so ordinary? A region made up of many small growers and known for their native red and white wines, rosés are far harder to find. Explore the taste and you will find the refreshing crisp flavours that Vinho Verde is so well known for alongside an unexpected and delicate touch of spritz.

This pale blush rosé has aromas of lively wild strawberry and watermelon. Young and crisp on the palate, with well balanced fresh fruit and floral notes, it boasts a smooth and delicate finish.

Serve Chilled. This wine is a great match for salads, fish and pasta with creamy sauces, try with a warm artichoke and asparagus salad or fresh sushi.

About

For consumers looking to be different and drink different, No Ordinary brings you the best unexpected wines from around the world.

Deep in the Essex countryside where vines have been grown since the middle ages, we found the UK's oldest and largest Bacchus plantation. Expertly blended in small batches using contemporary wine making techniques and hand harvested grapes, this English wine is delicate and crisp with aromas of elderflower, apple, and pear.

Best served chilled, this English wine would go well with a Caesar salad, mussels or lightly spiced dishes.
